Appointment Reminders +

Reminder messages are easily created and are sent only during the hours you specify. A typical reminder includes the name of the office who is calling, the client's or patient's name, date and time of the appointment, and a callback number. Touch response can also be enabled to help manage schedules.

- Personalized Messaging
- PHI Safe & HIPAA Compliant
- Optional Touch Response
- Results & Detailed Reporting
- No-cost, Risk-free Trial Program

Voice

Phone calls are clear and concise and can allow for touch response.

Text

Texting is fast and efficient and also allows for easy 2-way communication.

Email

Emails deliver appointment information right from your office email address.
